J. T. Beatty, farmer and feeder of Audrain county, Mo., sold three cars of cattle on the St. Louis market Wednesday at the top of the market. His shipment embraced 56 head, weighing 1253 lbs., and sold to the Independent Packing Co. at \$16.00. Mr. Beatty purchased the steers in this market January and they cost him right around \$14.00 as feeders. He has been feeding them ever since on a ration of corn and cottonseed meal, but Mr. Beatty was not very well pleased with the way his cattle turned out. He says a declining market this week, which undoubtedly was the cause of Mr. Beatty's cattle not doing better than they did.—Live Stock Reporter.

On October third, Benton City gave one of the best club day programs for a small place that has been held in the state. There were creditable exhibits made by two schools; demonstrations were made in corn judging, stock judging and in determining the percent of stand in an acre of corn. Addresses were made on the aim and purpose of club work and the importance of inculcating habits of thrift. Eleven schools dismissed in order to attend the meeting. This shows what may be done when teachers and patrons are interested in club work.
